KLEINWORT GRIEVESON

Sponsors of the Congress

In April this year Grieveson Grant, sponsors of the Congress for the last eight years, amalgamated with the merchant bank, Kleinwort Benson. Kleinwort Grieveson is the securities arm of the new organisation and as such is the continuation of Grieveson Grant into the new world of financial services. It will continue to provide

- Professional management of investors' portfolios.
- Investment research by specialised analysts with detailed knowledge of their industries.
- Specialised research and advice on government stocks.
- Research and comment on the economy as a whole, putting the prospects for investments into perspective.
- Research by experts on overseas markets.
- Corporate advice and pension fund management for companies.
- Nine unit trusts, with six specialising in overseas markets, provide the smaller investors with a means of benefiting from Kleinwort Grieveson's investment expertise.

After October 1986, when the much heralded "Big Bang" is ignited, Kleinwort Grieveson will be restructured. Its investment management and Private Client departments will be parts of Kleinwort Grieveson Investment Management. The Gilt Edge Department will merge with Charlesworth and Co. to form one of the new Primary Dealers, under the name Kleinwort Grieveson Charlesworth. The remainder will form Kleinwort Grieveson Securities.

If we can be of any help to you or you would like to know more about Kleinwort Grieveson's services, please contact one of the firm's representatives at the Congress or Michael Beaumont at the London Office at 10 Fenchurch Street, London EC3P 3DB.

THE SPONSORS

This is the 9th year of our sponsorship and the first under our new name of Kleinwort Grieveson. It is not the first time the name has been used in connection with chess, however. We were happy to be able to promote the match in May between Jon Speelman, our 1985 Champion, and Lev Alburt the U.S. Champion. We hope that such challenges will become a regular follow-up to the annual Championship.

I hope we shall witness another enjoyable and interesting fortnight's chess.

This entirely revised edition of The Chess Computer Book contains more than 50% new material. THE TEST OF TIME G KASPAROV

Gary Kasparov is not only one of the most exciting chess prospects of all times, he is also a profound and penetrating author. This collection of his writings covers all his major chess events from 1978 to 1984, culminating in his victories in the World Championship Candidates Matches. The annotations are of particular value, since Kasparov has updated them to take account of earlier analytical mistakes and of developments in opening theory. His self-critical approach - alongside his most brilliant wins he includes six losses and nearly thirty draws - helps to explain why, at the early age of 22, he has become the youngest World Champion in history.

The Poisoned Pawn or Fischer Variation is an exceptionally sharp line of the Najdorf Variation. Much of the analysis contained in this book is derived from Soviet, Yugoslav and Hungarian sources, together with analyses from America, Britain and West Germany. Main variations, sub-variations and alternatives to each main line game are discussed, together with typical middlegame and endgame positions resulting from the Poisoned Pawn openings.

**A MESSAGE
FROM THE
PRESIDENT OF
THE BRITISH
CHESS
FEDERATION**

This is the third time the annual BCF Congress has visited Hampshire, but only the first occasion we have come to the great seaport of Southampton. The Federation is grateful to the City of Southampton and the Hampshire Chess Association for the help and support given to the organisers.

The future of British chess lies in the hands of its young players and the County of Hampshire can claim to be one of the strongholds of English Junior Chess, not just in playing strength but also in the level of activity. With the advantage of home venue I am sure the Hampshire juniors will perform creditably.

Paying his customary close attention to the junior sections will be Mr. John Brew, Chief Executive of our sponsors Kleinwort Grieveson. The Federation is grateful to him and his company for the sponsorship not only of this Congress but the UK-US 'Match of Champions' which took place in London during April.

I extend a warm welcome to friends old and new gathering at the Congress, and in particular to our visitors from overseas.

DAVID JARRETT

A MESSAGE FROM THE CONGRESS DIRECTOR

August 1986 has been designated as British Chess month, as well it might be with the World Championship and the Kleinwort Grieveson British Championships both taking place at the same time. We will be having commentaries on the World Championship games in progress from 8.00 p.m. each day of play. If you play in the morning in Southampton, it is perfectly feasible to visit the match which takes place 5.00 to 10.00 p.m. and return that evening by train. The whole journey takes 1½ to 2 hours door to door.

At the time of writing it is likely that 6 grandmasters and 18 international masters will be competing in Southampton. Thus there is no reason to think of this event as a back-water. Graham Lee and Malcolm Pein will be presenting their views on the best moves to choose and there are more events than ever before.

The Control Team looks forward to seeing you in the Solent Suite for a convivial get-together on Sunday, 27 July from 8.30 p.m. They reckon it is then harder for you to complain later. Is this why we have managed to go five years without a serious dispute?

A MESSAGE
from
THE PRESIDENT OF THE
HAMPSHIRE CHESS ASSOCIATION

Hampshire Chess Association are delighted to welcome the British Championships to the County for the second time in ten years; at Portsmouth in 1976 and this year at Southampton Guildhall.

The excellent facilities at the Guildhall will no doubt be recollected by many of the competitors and officials who attended the Southampton Chess Club Centenary Congress there in 1983. That congress was noteworthy for the fact that computers were used, probably for the first time ever, not only to collate and print round-by-round results and tables but also to determine the pairings in seven separate 11-round Swiss tournaments covering some 250 players. I.B.M. kindly supplied micro-computers and programs, the latter being written to specifications by two officers of the club and County.

We also took the plunge in banning smoking in the playing area during play, a decision viewed with mixed feelings by myself as a pensioner of the British American Tobacco Co.!

The Association celebrates its centenary in 1990 and hopes to mark the occasion with a worthy tournament. Meanwhile it continues to flourish thanks to the quality and dedication of its officers over the years.

We are particularly proud of our efforts to stimulate chess interest amongst the younger residents in the County, and to assist those with talent and ambition to realise their potential. This is evidenced by the number of individual and team successes of our Juniors at both W.E.C.U. and at national level in recent years.

May I wish all competitors a happy and satisfying congress? Welcome to Hampshire and to Southampton.

PETER MARSHALL

HAMPSHIRE CHESS ASSOCIATION

The Association was founded in 1890. For some time a member of the SCCU it has in recent years been affiliated to the WECU in whose affairs it plays a full part. In fact our President is also President-elect of WECU. Our grading officer graded the results of last year's BCF Championships held in Edinburgh.

The Portsmouth, Basingstoke and Southampton Leagues as well as the Hampshire Junior League and all the major clubs in the county (over 30 including junior clubs) are affiliated to the Association which organises a full range of internal tournaments and junior training events.

CONDUCT OF PLAYERS

Stewart Reuben and his team seek to maintain the highest standards at the British Championships. It would help the smooth running of the events if players could bear the following points in mind.

REPORTING OF RESULTS

Both players **must** hand in the top copy of their scoresheet **promptly** after the game. This speeds up the next round draw, assists the media, and stops the Control Team wondering if they've lost a result.

DISCUSSION OF GAMES

Players **must not** discuss their game while they are playing. Nor should you ask another player about his/her game, as your reaction to their reply might be construed as comment or advice. If someone asks you how your own game is going, you should decline to answer. While you are playing, please do not visit the Bookstall or analyse or play through someone else's game.

ADJOURNMENTS

Players not used to playing adjournment sessions should note that:

An illegal sealed move will cost you the game as probably will one which is illegible or ambiguous.

The clock should not be stopped until the scoresheets are in the envelope sealed, and the clock should only be stopped by the player sealing. If your opponent is sealing, please assist him/her by quietly completing the envelope and putting your own scoresheet into it.

You can only seal before the end of the session if you take the unused time on your clock. Also you must have satisfied all relevant time controls.

You will lose by default if you are more than one hour late for an adjournment session even if you had more than an hour left on your clock.

DEFAULTS AND WITHDRAWALS

Players who default or withdraw without good reason will be refused entry to future Congresses. If you are obliged to withdraw, please tell the Chief Arbiter promptly.

SMOKING

Smoking in the playing hall is restricted to players and then only while their game is in progress.

FIVE-MINUTE CHESS

Playing speed chess with tournament clocks is forbidden. Indeed, no 'friendly' games in the tournament area during play are permitted.

Clocks may be hired for playing speed chess in the analysis room. There is a £5 deposit and a charge of 50p per day. Please enquire of an arbiter.

APPEALS

Appeals may be made against a controller's decision on matters of the laws of chess or of administration. Appeals should be made to the Chief Arbiter, Harry Baines. If a player is dissatisfied by the Chief Arbiter's decision they may appeal to the Appeals Committee.

An appeal to the Appeals Committee must be lodged with the Congress Director in writing, accompanied by a £2 deposit, returnable if the appeal is successful. The intention to appeal must be declared within one hour of the Chief Arbiter's decision.

The Appeals Committee will be:

Stewart Reuben, Congress Director or Gerry Walsh, FIDE Arbiter, in the Chair.

Two National Arbiters not involved in the original dispute.

Two players' representatives to be appointed (nominations welcome).

TIE-BREAKING AND PLAY-OFFS

In the event of a tie for any title other than the British Championship, the title will be SHARED. In the event of a tie for any prize monies, the money will also be shared.

The British Championship will be resolved by a play-off. Should the play-off be tied, it will be resolved by one-hour games. The prize money involved in this tie will be carried forward to the play-off and divided according to the final results.

In the event of a tie for the free places in the 1987 Kleinwort Grieverson British Championships in Swansea or the Hastings place in the Major Open the following will be used to break the ties: Sum of Progressive Scores. If this fails to break the tie then Sum of Opponents' Scores, except that the scores of the lowest-scoring and of the highest-scoring opponent will be disregarded.

In the event of there being a tie for the U.K. player who will have the right to play the Challenge Match against the U.S. Champion, if this takes place: this will be decided by the play-off, if it is for first place. If on a lower score, it will be decided by the system described in the paragraph above.

RATINGS & GRADES

Ratings and grades shown on the wall charts, other than those prefixed with an 'E' for estimate, are, as appropriate: FIDE list of 1 July 1986; BCF Union lists of Autumn 1985; Welsh list of Autumn 1985; Scottish list of July 1985; JIster list of Easter 1986; other national lists as advised.

CONVERSION OF GRADES

England uses a different scale to that used in the rest of the British Isles. The generally accepted conversion formula is to multiply the English grade by 8, then add 600, to reach the foreign rating. Thus 175 converts to 2000, and 1600 to 125.

IMPORTANT ANNOUNCEMENTS

MAJOR OPEN - Competitors in the Major Open who do not wish to play a **COMPUTER** must inform the Controllers or the Congress Secretary.

UNDER-9 CHAMPIONSHIP. Competitors are asked to assemble in the Conference Room at 11.30 a.m. on Saturday, 2 August.

THE 1987 KLEINWORT GRIEVESON BRITISH CHESS CHAMPIONSHIPS

SWANSEA, 3 to 15 August
at the Swansea Leisure Centre

The Bowls Hall at the Swansea Leisure Centre should provide an eminently suitable hall in which all the play can take place comfortably. Other facilities on site include a superb leisure pool, squash courts, table tennis, solarium, sauna, creche, etc. The Centre is situated close to Swansea's main shopping centre and is on the marina, itself being developed as a leisure complex.

Swansea is a pleasant town. If you prefer to stay in a seaside resort, Mumbles is just a few miles away at the start of the breath-taking Gower Peninsula. I am quite certain Swansea will prove to be one of the most attractive venues for the British Championships - no matter what your taste.

THE BRITISH CHESS MAGAZINE
105 years old and still going strong!

The famous 'journal of record' of the chess world, founded 1880, is now under new management but is keeping up the old traditions which have made it the only magazine to have kept going for a continuous century of life, come World War, come economic crisis.

Regular contributions from former British Champions **Harry Golombek, Bill Hartston, John Nunn, Jon Speelman and Ray Keene**, from specialist writers **K. Whyld (Quotes & Queries, historical research), C. Vaughan (Problem World), P.A. Lamford (Studies)**, all under the general editorship of **Bernard Cafferty**.

Regular reviews of new books, including titles in German and in Russian (the two main languages for chess publications after English), up-to-date news from the British Isles and abroad, about 400 games a year, reports on leading tournaments.

BCM has its own publications: *Quarterlies and Classical Reprints*, including books on **Staunton, Sultan Khan and AVRO 1938, Keene's *Flank Openings*, Harding's *Counter gambits*, Golombek's *1948 World Championship* and so on. Ask for our list!**

So why not become a regular subscriber to the 48-page magazine (560 pages a year, plus xvi-page index) that comes out regularly in the first week of each month? You may subscribe direct to us at:
